JOSIAH TURNER, Jr., EDITOR.

THE UNIVERSITY.

Upon one issue, presented from time to time since the close of the war, the determination of the people of North Carolina has been fixed and unwavering. New constitutions, new governments, new laws, new men, and new things generally, have at various times solicited their attention, and to a very great extent have solicited in vain. The necessity of submission to superior brute power, brutally exercised, has doubtless dictated this course. With each fresh submission on our part, the oppressions and cruelties of our rulers have increased. They have emancipat d our slaves, and by excessive taxation, have well nigh confiscated our lands. They have subverted our State governments, ousted our legally appointed officers, and in their places have installed a pestiferous brood of hundry vultures, whose gaping mouths and voracious maws nothing can fill. Fatally bent upon our complete and permanent subjugation, their course has been uniform and systematic. Fleshed with their success in exciting, in comparatively a few years, the minds of the people of the North to a pitch of insane fanaticism upon the subject of slavery, they have been and still are laying their plans to poison the minds of the people of the South by these same means of lying school books and lying school masters. To this end complete possession has been taken of the Common Schools and of the University—the property of the latter having, less than one year past, been guarded by a band of armed soldiers. To this end and accidentally for private gain, an attempt was made to compel by law the use in our schools of such book, and such only, as the Radical Superintendent of Public Instruction might prescribe At this point, however, ultra Radicalism met with open defeat, and Mr. Superintendent Ashley, perhaps the most bitter and r. lentless enemy to our people, and the most untruthful, malignant and bigoted man of his party, failed to have conferred upon him by law, the power, at once, to fill the minds of our children with falsehoods and his own pockets with gold.

A second defeat was witnessed in the refusal of the Legislature to make an appropriation of public money to support in idleness a few men calling themselves the Faculty of the University—a University with grounds and buildings, and professors and servants, and two students, kinsmen of the President, so-called, and a few village boys who are barely old enough to go into round jackets and the multiplication table!

While the course of the Legislature had been such as to render this action on its part somewhat unexpected, the course of the people of the State had been uniformly of an unmistakable character—they had watched with jealous eye everything pertaining to the University, and had determined that, though it was the pride of the State and its most cherished institution, it should perish, utterly and forever, rather than become a centre from which to disseminate false teaching and erroneous doctrines. It was said by way of hopeful promise for its future, that not even the occupation of the University by the enemy, Kilpatrick's thieves and bummers, could suspend its operations, and that the College bell continued without fail to summon the students to their accustomed exercises, and it may be said with equal truth, that not even the whole power of the conquering army of the United States has been able to compel the people of North Carolina to send their sons to Chapel Hill to obey that summons or to take part in those exercises. —*Wil. Journal.*

"GUILD OF THE HOLY CROSS."—The New York correspondent of the Philadelphia *Ledger*, in his letter on Monday, says:

"A very remarkable ceremony took place at an early hour this morning, in Christ (Episcopal) Church, Fifth avenue, of which the Rev. Dr. Ewer is rector. The services were on behalf of an Episcopal (High Church) Society, called the "Guild of the Holy Cross." Briefly stated, it may be said to have been a formed adoration of the cross. The body of the Church was dark, but the chancel was all ablaze with lights. On the altar was a colossal brazen cross, before which priests and acolytes repeatedly knelt. In the course of the ceremony there were various processions around the church, proceeded by boys in surplices, bearing wax candles, crosses, &c., &c.

The "Fellows of the Guild" attracted particular attention. They were robed in long black gowns and chausables, some of bright red, others blue, trimmed with white and gray, ornamented with gold, and on the bosom of each a large cross was embroidered. Some of the hymns sung on the occasion were no less remarkable for their expression of reverence for the cross. One of these, which was substituted for the *Gloria in Excelsis* in the communion service, concluded in this wise:

Faithful Cross! above all other,
One and only noble Tree!
None in foliage none in blossom,
None in fruit thy peers may be;
Sweetest wood and sweetest iron,
Sweetest Weight is hung on Thee.

The low Churchmen are greatly puzzled at this service, and are asking what it all means. Heretofore St. Albans has been looked upon as the most advanced ritualistic church in the diocese, but the palm will now have to be awarded to the church in the Fifth avenue

OUR PREJUDICES. Don Piatt excoriates the people of every town, city, and village, in his own inimitable style, when he speaks as follows of one of the editors of the *Nation* and of what would be said of him "in the great Northwest":

"There is a belief prevalent at the West that a man who parts his hair in the middle is either feeble minded or insane. If to this he adds mutton chop whisker, pity gives way to wrath, and there is an irresistable impulse to assault the offender with stones.

Mr. Donnett will persist, I am sorry to say, in thus attacking the principles of the great Northwest. He is wrong in this, and puts himself at a great disadvantage. He might assail our political dogmas. He could assert that universal suffrage was not a cure for all the ills that flesh is heir to.—He might assert that the late Lamented was not 'a second advent,' or that the Father of his Country was not seven feet high and an impossibility of greatness and virtue.—He could attack our religion, supposing we had any. But let him appear with hair parted in the middle and mutton chop whiskers, and, to use a strong, vulgar witticism, he is 'a gone coonskin.'"

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, MAY 15, 1869.

DESPOTISM OF THE LEAGUE.

No good citizen can be silent or inactive in the contest which is now being waged by the leagues against the Constitution and the laws. If we support the leagues we can't support the Constitution or the laws. When the league triumphs the Constitution is trampled on. When freedom and the Constitution triumphs the leagues are down and done with.

The grand centre and head of the leagues is the Governor, he has control of all the public works in the State, Railroads, canals, &c. He has declared that no man who fails to vote for him, his party and the league, shall hold office or place.

On the North Carolina Railroad Agents and Section Masters were dismissed for no other reason than their refusal to vote for Holden and the league. Men, humble laborers, who, for ten and fifteen years, had worked faithfully, were discharged to make way for lazy inefficient leaguers. By the aid of 50,000 negroes a faithful, competent and honest Judiciary are dismissed from the bench, and men incompetent, ignorant and drunken, are placed in their stead, membership or sympathy with the league being the only qualification required of a Judge. (These remarks are not applicable to the whole Judiciary.)

The Governor, in violation of the Constitution, has issued warrants for money to be paid by the Public Treasurer, for a party platform erected in the Capitol Square for League orators to stand upon while they address the grinning negroes of the League.

In Wilson County, by order of the League, a number of League negroes go to the house of a negro, take him out of his bed and give him 300 lashes because he voted against the league. The League Judge, upon conviction, put them in jail for 30 and some for 60 days (light punishment indeed!) The President of the League, the Governor, pardoned and released them. We mention it, in justice to Judge Thomas, of the League, he is a sober but not learned, but he had independence enough to condemn this action of the Governor, and he has been heard to say, on more than one occasion, that it was a gross and unpardonable outrage on the part of the Governor.

When a member of the League, contrary to law, took possession of the Supreme Court room, and refused not the order but the gentle request of the Court to vacate the room, the Court punished him for contempt, the President of the League, in his capacity of Governor, swore the punishment should not be inflicted, and actually rescued the offender from the custody and control of the Court.

The conduct of the Court, in tamely submitting to this indignity and outrage upon the highest judicial tribunal of the State goes to prove the low estimate which they themselves place upon Judicial decency, authority and order. If it had been an humble citizen, not belonging to the League, who so defied, contemned and cursed at the Court. Nothing short of the jail for the offender could have appeased the justly offended and outraged Court.

These are only a few of the many victories which the League, and its President, have had over the Constitution and the Courts. Such decisive and triumphant victories of Secret Societies over the Constitution and law, would arouse the indignation of any but a subjugated people.

Several negroes representing an organization known as the National Colored Convention, visited President Grant, and presented an address urging the appointment of negroes North as the best means of reconciling the Southern people to negro officers. The President said he would consider their suggestions.

This is a very sensible movement. Some weeks ago we directed the attention of our colored readers to the gross injustice of depriving them of offices, and in another article, pointed to the unwillingness of the Northern people to have colored men appointed to offices of honor and trust in the North. We insisted that Boston and Detroit should each have a colored postmaster, and so we think still. We tell the colored people to keep the ball in motion. Don't let it stop for a moment. Importune the President—insist time and again that you are entitled to hold office if you are capable, just as much as your carpet-bag deceiver, or your scallawag associate. Indeed, you are more entitled to office than these classes, other things being equal, because it was your votes that elected Grant and made Bill Holden Governor of this State. Holden is bound to give you office. He ought, and he could if he had any gratitude, appoint some of you to places of emolument and honor. Jim Harris ought to go to Congress in place of Dewesse, rather than he should be succeeded by a scallawag, or some other carpet-bagger. In a word, there are many offices that could be as well filled by some colored men as they are now filled, and it would appear appreciative and grateful in Holden if he were to use his influence to obtain good places for his best qualified colored supporters.

If colored men are appointed to Southern offices, why then may they not be appointed to Northern offices? Will any one deny that "turn about is fair play?" Grant owes his election to the colored vote, and he ought to hear favorably the petition of the "National Colored Convention" praying that negroes should be appointed to office at the North.

FRAUD UPON THE REVENUE BY HON. JOHN T. DEWEESE.

The *Scientific American*, a weekly paper, neutral in politics and published in the city of New York, is answerable for the following:

"The outcry made some months ago against the abuse of the franking privilege on the part of members of Congress seemed to put a check upon it for a while, but we have now before us a private business circular of a Washington firm, styled "Swetland & Co.," franked by the written signature of Hon. John T. Deweese, Member of Congress from North Carolina. We call the attention of the Hon. Mr. Deweese and of Postmaster General Cresswell to this system of *sweating* the postal revenue. Its not fair, it's not honest."

The date of the paper from which this is taken is May 15th, and it reaches us at sun rise on the day of its date. Containing so grave a charge against a member of Congress one might think from the date and the charge that the paper was too fast to be reliable. Not so—the *American* is not only fast, but truthful, useful and able. The information is no news to the constituents of Deweese. His constituents have long known of his frauds upon the revenue and signified their disapprobation of his conduct by making it a subject of their presentment when acting as Grand Jurors.

ALAMANCE Co., May 12th, 1869.

Mr. Editor:—Can you give the names of the men who made the requisition on Holden for militia to be sent to Alamance?—The bill will be presented for payment some day, and the tax-payers have a right to know who is responsible for this worse than useless expense. It is conjectured by some that certain office-holders had something to do with it. If this is so the voters would like to know it before another election.

If you can furnish the above information you will confer a favor on

A TAX-PAYER.

We are not able to give the information. We have heard that Mr. Badham and Mr. Albright, of Graham, were among the number. Mr. Badham is the loyal Attorney for the N. C. Railroad, and will care as little about taxes as he did about who should win the fight in the late war. Yet he was as good a secesh man as Holden or Rodman. The tax, too, is the smallest part of the matter. It is the outrage on constitutional liberty, of which Alamance should complain. A secret league Governor sending an armed detective force to be quartered on a free people, without their consent, is not to be borne in silence.

GONE!

Abbott, the man who bullied Sprague in the United States Senate, left the city this morning at sun up. Deweese, the man of fraudient franks, accompanied him to the depot. Neither the Governor nor James Harris went to see him off. Rumor has it that the Governor wishes Abbott's place in the Senate, which accounts for the secret war he is making against carpet-baggers.

TENNESSEE.—The atrocious despotism under which the white people of Tennessee are living is succinctly described by the Cincinnati *Enquirer* in the following paragraph:

It is well for our readers to be informed as to what an election amounts to in Tennessee, and how the right of suffrage is exercised there—a right dear to freemen and formidable to tyrants only. The Governor has the power to appoint a register for each county in the State. No citizen can vote without a certificate of qualification from the register. There is an exception made in favor of those who have voted in certain elections held prior to the passage of the franchise law. Outside of this, every applicant for a certificate must prove by two witnesses known to the register to have been ever loyal in sentiment and conduct to the government, and the applicant must take a similar oath. After this proof is made, the register grants the certificate or not, as he pleases. The Governor can remove the register at any moment, and declare the entire registration void, and appoint a new register; or he can, without proof, or even the form of a political trial, declare any number, or all the votes cast in an election, fraudulent, and thus elect either candidate; or he can declare the whole election void, and appoint a new register and order a new election; or he can decline to order any election and appoint whom he wishes to the office. This power extends from the lowest to the highest office in the State. It will be perceived that absolute power is centred in the Governor. This act of the Legislature has been declared by the Supreme Court of the State to be in accordance with the Constitution of the United States, which guarantees a republican form of government to every State. The Judges so deciding were all appointees of the Governor. Senter formerly Speaker of the Senate, is now *ex officio* Governor of the State. The candidates for the nomination are Senter and Stokes, with the chances in favor of the latter. The Conservatives have wisely concluded to run no candidate. There is no chance for a Democrat in the coming election.

All is not reality in the land of "Reconstruction." No! Romance also waves her sable wing above those happy climes.—Fay, a trooly loil and philanthropic sub clerk of Bullock, "Executive" of Georgia, yesterday, in the most romantic manner, shot his colored mistress and himself.—Though not fair, it seems his beloved was fickle; and Fay, being a Radical, sought to effect a radical cure. He succeeded in his own case; requested the deeply wounded object of his affections and of his aim to "kiss him;" and, having thus been osculated, died. The dark Desdemona survives her Caucasian Othello. Had Fay escaped and Fay's sable fairy perished, we should have had a special dispatch to the *Tribune* describing Fay as a chief of the Ku klux, and his sable fairy as the heroine who had played Malniche to the Cortez of Sherman and guided the "great march to the sea."

Verily, the land is weary with much lies!—*N. Y. World.*

THE COST OF A TRIP TO CALIFORNIA BY RAIL.—The probable cost of a trip to California by rail has often been asked during the past year. A late San Francisco Bulletin furnishes information on the subject, giving the following figures: New York to Chicago, 960 miles, $18 75; Chicago to Omaha, 496 miles $17.53; Omaha to Salt Lake, 1,070 miles, $40.13; Salt Lake to San Francisco, 775 miles, $77.50. From this it is seen that the total distance from ocean to ocean is 3,296 miles, and the fare $153, 91. As may be noticed, the charge on the last stage, the Central Pacific, is more than that on the remaining three fourths of the journey; but the company has promised to reduce its rates by next July.

PEN AND INK SKETCHES OF THE UNIVERSITY OF NORTH CAROLINA, AS IT HAS BEEN

DEDICATED TO THE PEOPLE OF THE STATE, AND TO THE ALUMNI OF THE UNIVERSITY.

No. 6.

DR. CALDWELL'S LAST DAYS.

In the year 1824, Dr. Caldwell by desire of the Trustees visited Europe in order to purchase books for the Library, and to superintend in person the construction of a Philosophical apparatus. After a short stay in London, he proceeded to the Continent, passing through Paris and Lyons to the Lower Alps and thence down the Rhine to Frankfort. Returning to England, he visited Scotland, and finally returned to America after an absence of ten months, having been entirely successful in all the objects of his journey. The excellence of the instruments he provided, and the value of the books then added to our University Library attest the fidelity and skill with which he discharged the trust committed to him. The most interesting result of this visit was the strong feeling excited in his mind on the subject of internal improvements—a subject which perhaps engrossed more of his thoughts during his last years, than anything else connected with this world. Then appeared the Carleton Letters, before alluded to. He brought with him from London a small model of a locomotive engine, and a circular railway, which I suppose was looked upon in those days as nothing more than a very ingenious toy.—The Dr. however saw its future development and capabilities, and what the invention was to do for this continent. And he was never tired of bringing the subject before the public, or enlarging on it in conversation with his friends. Dr. Caldwell's house was a most hospitable one. His table was well spread and generous. Every New Year's Day there was a grand dining for the members of the Faculty and their families, enlivened by all that wit and wine can do to cheer.

THE "HARBINGER."

To those who look critically into the records of life, at the University, forty years ago, it appears that a very vigorous and healthful intellectual growth had begun.—Dr. Caldwell was not only a student but he was a man of active character, and he liked to see growth going on around him—improvement—results. He was, by no means, satisfied to do only as the fathers had done, to move in the same ruts. He was for having a valuable Library accumulated at the University, for providing the workers there with the best possible tools. In 1839, he projected and started a newspaper, the first ever published at Chapel Hill, which, being controlled and edited by the Faculty, should be an organ for them—a medium of communication with the literary and scientific world. I have heard those who were well qualified to judge, say of this paper, "*The Harbinger*," that it was, while it lived, much the best paper in the State. No file of it is in existence now, for there was no Gov. Swain in us day to teach the value of such records. But such stray numbers as may be picked up here and there, show that it took high ground at the start, and maintained it. The publisher was Isaac C. Patridge, of Newbern, now deceased for many years. His son was an editor in Vicksburg, Miss., before and since the late war, a sprightly and vigorous writer, and now a practising lawyer in that city. His widow resides in Chapel Hill. It may be presumed that Dr. Mitchell contributed speculations and discoveries in natural science, Dr. Hooper contributed criticism, Dr. Phillips problems and mathematical questions, and Dr. Caldwell's presiding genius welded the whole together. The *Harbinger* lived but a few years. A complete file of it now would be invaluable to the antiquarian.

HIS LAST ILLNESS.

The first access of that disease which finally brought Dr. Caldwell's life to a close occurred in 1828, after which he never was in the enjoyment of good health. Nearly the whole of the six or seven years that elapsed before his death was a period of unremitting suffering. He was often the victim of excruciating pain, but seldom alluded to it, even to his most intimate friends. Exerting all his powers of self-control, he endured to the last, maintaining an air of urbanity, and attending to the duties of his office even when racked with pain and worn and wasted by sleepless and tortured nights. Nothing could impair his devotion to the interests of the institution which he had fostered so long; nothing could induce him to relax from his labors.

"Singulchri inmemor, struit domos."

On the Saturday previous to his death, he retired from the lecture room to his bed, from which he never rose again, but under the impulse of his mortal agonies

HIS LAST SERMON.

He preached his last sermon in the village meeting house, during the winter vacation of '34-'35. I remember the day. It was gloomy and bitter cold. There were no stoves in Chapel Hill then, and the congregation was small. Dr. Caldwell took the whole of the 23rd Psalm, ("The Lord is my shepherd,") for the ground of his discourse. I was one of two or three little children who sat shivering among their elders, looking up at the hollow gaunt, strongly-marked countenance, which was then saw for the last time. The tried and well of which he spoke were soon to support his own footsteps through the dark valley.

HIS DEATH.

On the evening of the 21st of Jan., 1835, his terrible disease made its last ferocious assault with such violence that he knew his hour of release was come. And he hailed it. He was well furnished for the last conflict, and his affairs having been long set in order, he gladly withdrew his thoughts from all earthly objects and calmly looked upon that futurity to whose verge he was come. His religious character was not the formation of a day, nor the hasty and imperfect work of a dying hour. The inestimable consolations of his faith became brighter and stronger as death drew nearer, and though his hope was modestly and humbly expressed, yet it was also confident.

For three days the struggle was protracted with such intensity of suffering that his vigorous and well-balanced mind at last sank under the contest. His old friend, Dr. Webb, of Hillsboro', one of the most skilful and widely-known physicians of the day, was with him, and he breathed his last surrounded by all the members of the Faculty. He died in the parlor of his own residence, which, being purchased by the University after Dr. Hooper left Chapel Hill, was occupied afterward by Bishop Green, and subsequently, for eighteen years, by Gov. Swain, who, thirty-three years after Dr. Caldwell, breathed his last in the room on the opposite side of the hall.

THE PRESIDENT'S HOUSE.

That ample and old fashioned parlor has been the scene of many an interesting assembly. There I have seen funerals, and stately weddings, and as lovely brides as the sun ever shone on. There for years Bishop Ives administered the rights of confirmation, and of communion, and of Baptism, while parlor, hall and piazza were crowded. This was in the day, after Dr. Caldwell's, when the Episcopal Church was not yet built, and Dr. Green held the Church services on Sunday night at his own house. Those venerable oaks which have this spring bent before the new order of things at the University, and now alas! no longer lift their leafy honors high among their brethren of the grove, had shaded two generations of as unique a society, had waved over the coming and going of as remarkable assemblages as could be found elsewhere in all the country. Two Presidents of the United States have been received there, on the grand old Commencement days, when the good and great, and the young and beautiful gathered around to do honor to our graduates, but the scene has never been so impressive, the presence never so august as when Death held his court there, and, at the interval of thirty-three years, I saw the first and last President of the University lying there in State.

THE FUNERAL.

The news of Dr. Caldwell's death was received with universal and heartfelt sorrow throughout the State. Men of all classes felt that a public benefactor was gone, and wondered where a successor could be found. Dr. McPheeters, of Raleigh, was to have preached the funeral discourse, but he not arriving in time, Dr. Mitchell officiated. Dr. Caldwell was buried in a grave which he had himself prepared when he laid out the village graveyard. It was a square, brick lined vault, in the exact centre of the yard. The following November his remains were exhumed in order that a plaster-cast of his features might be obtained. This was done successfully, and the bust is now in the Philanthrophic Library Room, of which Society he was a member. There is also an oil painting of him taken in early life.

MRS. CALDWELL'S DEATH.

After she became a widow, Mrs. Caldwell removed to Hillsboro'. Returning to Chapel Hill on one occasion, in 1846, to visit her relatives, she was suddenly taken ill, and after a few days illness died. A monument had, by this time, been erected to Dr. Caldwell in the College grounds and as it seemed proper that his remains should rest under it, with his wife's, he was again disinterred and the husband and wife placed side by side. After some years a monument of white marble more worthy of him was erected by public subscription in another part of the grounds. But there seemed to be a natural reluctance to disturb his remains again, and he still rests under the old monument. After another generation passes away it will be forgotten where this venerable pair repose. Few of those who are growing up, are aware of it even now.

IMPORTANT ACT.

AN ACT REQUIRING SHERIFFS TO GIVE SUFFICIENT BONDS.

SECTION 1. *The General Assembly of North Carolina do enact*, That it shall be the duty of the County Commissioners, in each and every county of the State, to make immediate examination of the bonds of Sheriffs in their several counties, and if, on such examination, it shall be found, in the opinion of said Commissioners, that such bond is insufficient to secure the faithful accounting of the Revenue of the county and State, for the current year, the Chairman shall forthwith notify said Sheriffs, in writing, to appear within ten days, and give other and better security, or justy his present security on his bond.

SEC. 2. On the appearance of said Sheriff, the County Commissioners shall have power to take new bonds, with sufficient security, in double the amount of the taxes to be placed in his hands, for current year, or to justify by proof or otherwise, his present bond; and in case such Sheriff shall fail to appear on notice, or fail to give sufficient bond, or to justify his present bond, it shall be the duty of the County Commissioners to elect, forthwith, some suitable person in the county to collect taxes for the ensuing year, who shall give like bond, and be subject to like obligations and penalties.

SEC. 3. That if any County Commissioner shall fail to comply in good faith with the provisions of this act, they shall be liable for all losses sustained in the collection of taxes, on motion to be made by the Solicitor of the District, and also be guilty of a misdemeanor in office, and on conviction shall be fined not less than five hundred dollars, nor more than one thousand dollars.

SEC. 4. The County Commissioners shall call a meeting forthwith, after the ratification of this act, to comply with the provisions of the same.

SEC. 5. The Secretary of the State is required, immediately on the ratification of this act, to send a certified copy to each Chairman of the County Commissioners in the County.

SEC. 6. This act shall take effect from and after its ratification.

Ratified the 12th day of April, A. D., 1869.

TOD R. CALDWELL,
President of the Senate.

AN ACT to Protect Married Women from the Wilful Abandonment or Neglect of their Husbands.

SECTION 1. *The General Assembly of North Carolina do enact*, That if any husband shall willfully abandon his wife without providing adequate support for such wife, and the child or children, which has begotten upon her, he shall be deemed guilty of a misdemeanor, and, upon conviction, shall be fined not to exceed the sum of fifty dollars, or imprisoned not to exceed one month, or both, in discretion of the Judge of the Superior Court, or Justice of the Peace, before whom the case shall be tried.

SEC. 2. That if any husband while living with his wife shall willfully neglect to provide adequate support for such wife, and or children which he has begotten upon her, he shall be deemed guilty of a misdemeanor, and, upon conviction, shall be fined not to exceed the sum of fifty dollars, or imprisoned not to exceed one month, or both, in the discretion of the Judge of the Superior Court, or Justice of the Peace before whom the case shall be tried.

SEC. 3. That in the case provided for in sections one and two of this act, if the fact of abandonment and failure to provide adequate support of wife and child, or children, shall be proved, or while being with such wife, neglect to provide for the adequate support of such wife and child, or children, shall be proved, then the fact that such husband neglects applying himself to some honest calling for the support of himself and family, but is found sauntering about, endeavoring to maintain himself by gaming or other undue means, or is a common frequenter of drinking houses, or is a known common drunkard, shall be presumptive evidence that such abandonment and neglect is wilful.

SEC. 4. That in all such cases as is provided for in this act, the wife shall be a competent witness as to the fact of abandonment, or neglect to provide adequate support by such husband for his wife, and child or children.

Ratified the 12th day of April, A. D., 1869.

Miss Braddon denies the London newspaper story that she had gone crazy, and cites to the contrary the fact that she is now writing one of her usual novels, although that will be no proof at all to most people.

PROGRESS IN THE BOOK LINE.—Branson's New State Directory for '69 is decidedly the handsomest and most valuable book of the kind we have examined. The work is so arranged as to make it very valuable not only to business men, but to almost all classes of the populace. In each county you will find information in detail of the staple, surface, valuation of land per acre, the county and City officers, merchants, lawyers, physicians, churches, manufactories, gold mines, and in fact almost everything of any interest to the citizen or to emigrants. The Directory is indeed a very valuable book, it is prepared by Rev. L. Branson, a native of the State, who has for the last four years given special attention to this work, and has elicited much valuable information never before brought to light. Mr. J. A. Jones, of Raleigh, the publisher, has the work printed and bound in a very serviceable style. Send and get a copy, price per mail $2.25.

THE VARIOUS LEAGUES.

WASHINGTON, May 8, 1869.—The organizations known as the "Loyal Union League," the "Grand Army of the Republic," and the Soldiers' and Sailors' Union" are recognized here to vital and progressive bodies. A delegation of one or more of these infernal conspiracies, under the lead of Governor Geary, of Pennsylvania, has lately waited upon General Grant, and was "cordially received" by him, according to the official party organ. These pestiferous combinations have heretofore been considered as aiming, more particularly if not exclusively to control appointments to office. So long as they confined themselves to this business no one saw proper to object. It had long since been a foregone conclusion that the United States was to be represented in all its relations by the vilest of its population. But it seems these organizations are looked to by the Government as adjuncts and willing helpers in more important affairs, as designed to have direct influence in the contemplated change in the form of the Government. They are put to a two-fold use. First, to show that the country is and has been for the past eight years practically under their control, and therefore not governed by officials known to the Constitution and the laws.—No worse state of things, it is conclusively argued, could possibly exist. Secondly, they are relied upon as the physical agency to set afloat a new imperial government through which this acknowledged evil might be suppressed! The principle upon which the *Imperialist* at New York was founded is fully comprehended in this simple statement of facts: By Radical machinations the necessity of a strong government has been made apparent; by Radical ambition the remedy has been thus foreshadowed! A slight glance at the columns of the Government's New York national organ will sufficiently show the drift of the current along with which we are gliding to imperialism.

I have already noticed the fact that the "*Imperialist*" is received at the White House. I have now to say that the organization of the Cabinet *was inspired by the direct reference to combinations having in view the overthrow of the forms of republican institutions*, with an eye to the means as detailed above of accomplishing that object. A single fact will perhaps suffice to prove this: It will be recollected that Mr. Borie (a known life long monarchist) was transferred from the Presidency of the Philadelphia "Union League" to the Secretaryship of the Navy. We have now the high authority of the Newark *Journal*, edited by one of the most distinguished men of New Jersey, to the effect *that the money of Mr. Borie largely aided in the establishment of the "Imperialist."*

THE CONGRESSIONAL HAREMS IN WASHINGTON.

Some weeks since, the New York *Independent* published a letter from Washington over the signature of Hannah Tyler, which we copied at the time, making disclosures of what were represented to be facts in regard to the abominations that have grown out of the practice of employing females in the various Departments as clerks.

The statements in this letter having been denied, unofficially, Hannah Tyler has written a second to the *Independent*, in which she reaffirms her former statements, and adds:

"My observation has shown me that any simpering girl can wheedle more favors from her superiors by one shake of her curls than a conscientious man could obtain by a year's diligent labor. It is not my intention to be personal. But every one in Washington knows that the rule is if clerks are absent from their desks, except when on leave, a corresponding deduction is made from their pay; yet it has been no uncommon thing for women to ask two weeks' leave, remain away two or three months, and on their return draw the full arrearage of salary. And if their pay was stopped by the disbursing clerk, they would send such details of portly gentlemen, signing themselves 'M. C.,' that he would be glad to pay the money, fearing to lose his own place. A married lady sits within speaking distance as I pen this paragraph, who remained at home for more than a year, and drew $74 per month for the entire period. As a woman, I denounce this as a fraud on the public."

To this the editor of the *Independent* appends the following:

J. M. Morris writes us a long letter filled with statements even more startling than those of 'Hannah Tyler.' We certainly shall not print these statements until the writer gives us some guaranty of his or her responsibility; and not then even, unless we are convinced that such an exposure would promote the public good. If one half of what the writer says of members of Congress and their relations with some of the women of the departments is true, Washington almost deserves the fate of Sodom and Gomorrah, and every virtuous citizen of the United States has cause to blush for his country.

Had these statements been put forth in a Democratic newspaper they would have been met at once and denounced as "copperhead lies." But coming as they do, through the columns of the *Independent*, a well known radical paper, they cannot be responded to and bluff'd down in that ruffiantly and succinct manner.

Thus the matter now stands. The Departments in Washington, since the sham republicans came into power, have, to a great extent, been transformed into houses of assignation and prostitution, mainly through the agency of members of Congress, for the gratification of their own lustful and lecherous propensities. And the evidence to substantiate the charge has chiefly, so far, been presented to the public through the colums of republican papers, whose editors admit that if half that is stated is true, "Washington almost deserves the fate of Sodom and Gomorrah, and every virtuous citizen of the United States has cause to blush for his country."—*Maine Standard.*

THE ENGLISHMAN'S 'AT.—The London papers are ridiculing the invariable custom of Englishmen of wearing the tall beaver hat in all countries and climates, and are making a savage effort to abrogate the use of it entirely. The London *Globe* says:

"Meet an Englishman at Moscow in midwinter, and he will risk the frost bite of his ears sooner than lay aside the crowning absurdity of his State attire. Follow him to Calcutta, and a gala day at Government house will find him braving sun-stroke for the sake of his home traditions. It is likely enough that even the up country settler in Australia may don a tall hat on Sunday and fancy that it brings back a flavor of old country associations. Go to a West End church next Sunday in a wide awake, and mark the effect upon the beadle. You will see at a glance that society has its demand upon you, which it is not safe to ignore. A tall hat, even when of the most unexceptionable manufacture, cannot be correctly described as pretty or becoming; but it is much better to wear it patiently, and to all appearances lovingly, to the end of your days, than to be withered by the scorn of an entire congregation."

A new stock company has been formed Boston to make cigars by machinery.

THE MASONIC FRATERNITY AND THE WASHINGTON MONUMENT.—The Grand Lodges Free and Accepted Masons of Arkansas, Mississippi, Florida and Virginia have each furnished a sculptured stone to be used in the construction of the Washington Monument. These are to be placed on the inside of the monument, so as to be read while ascending the spiral staircase.

HAVANA, May 13, M.—Usual accounts of engagements between the spaniards and Cubans have been received—all magnified and arranged to suit both parties. Charges of atrocities, assassinations and crimes are made by the Journals and by private letters.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,990,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but effectual purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that when it does cure it does always—that it never fails through any fault or neglect of its composition. We have thus won and now wear testimonials of remarkable cures of the following complaints, but such cures are known in every neighborhood, and we should not publish them if there were not ample room for all in the columns of a single newspaper; and stating neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh, and all can be pleased to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia or Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with the antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is the mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

PRAYER.

BY ARCHBISHOP TRENCH.

When prayer delights the least, then learn to say,
Soul, now is the greatest need that thou shouldst pray.

Crooked and warped I am, and I would fain
Straighten myself by thy right line again.

O come, warm sun, and ripen my late fruits;
Pierce, frost, whatever lives in my parched roots.

My well is bitter; cast therein the tree,
That sweet henceforth its brackish waves may be.

Say, what is prayer when it is prayer indeed?
The mighty utterance of a mighty need.

The man is praying who doth press with might
Out of his darkness into God's own light.

White heat the iron in the furnace won;
Withdrawn from thence, 'tis cold and hard anon.

Flowers from their stalks divided presently
Droop, fail, and wither in the gazer's eye.

The largest river from its fountain head
Cut off, leaves but a parched and dusty bed.

All things that live from God their sustenance
waits
And sun and moon are beggars at His gate.

All skirts extended of thy mantle hold;
When angel-hands from heaven are scattering gold.

WASHING COMPOUND.

Patented Sept. 22, 1868.

REASONS FOR PREFERRING THIS SOAP.

The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:

First, it can be manufactured at less than half the cost of any soap ever produced.

Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft

Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.

Fourth, it does not discharge the colors of goods, and your prints and stripes are as brilliant after washing as before.

Fifth the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,005,550.00
Total Premiums,	350,117.08

THE Sentinel.

PUBLISHED AT THE
CAPITAL OF THE STATE,
Daily, Semi-Weekly and Weekly.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph, will be carefully collated and presented.

Full and correct market and financial reports will be given.

And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable

FIRST CLASS NEWSPAPER.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, fell themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks, so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

We paid the state near Seven Hundred Thousand Dollars for her Interest in this Road—thereby saving the people from Taxation for all time to come, $60,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NEW METHOD OF WASHING CLOTHES
WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove of Range, in any boiler, and the Low PRICE of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, and poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the best blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and abstracting the dirt, WHOLLY LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so sweetly to common sense, that we have deemed it unnecessary to accompany the introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOGUE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the state.
